

SMART529 Select College Savings Plan

Important changes are happening to SMART529 Select College Savings Plan effective October 18, 2019

We're enhancing the SMART529 Select College Savings Plan by expanding the number of Age-Based Portfolios and updating the underlying fund allocations. If you are invested in an age-based portfolio, you may be transitioned to one of the new age-based portfolios, accordingly. The underlying fund allocations within the Static Portfolios will also be changing. More information is available in the Supplement enclosed with this update. These changes will provide smoother equity step downs between age bands.

Expanding Age-Based Portfolios

The SMART529 Select College Savings Plan is increasing the number of age-based portfolios from seven age bands to nine. Additional age bands will help smooth the transition, (i.e. glide path) from equities to fixed income as your beneficiary ages.

What to Expect as October 18 Approaches

There is no action necessary on your part. The changes will take place automatically and they will NOT be considered one of your two allowable investment changes for 2019. However, if after reviewing the changes you decide you would like to make an investment change, any change you make would count toward your two allowable annual investment changes. You can change the allocation instructions for new contributions at any time with no annual restrictions.
